Authorized to work in Germany — post-study job-seeker visa (German MSc graduate)

Data Analyst & Data Scientist with 15 years of software engineering experience in Java, PHP, and MySQL across core banking, POS/inventory, payroll, real estate, and e-commerce systems — now applied to Python, SQL, Power BI, and machine learning. MSc in Data Science, AI & Digital Business (GISMA, grade 2.2) with a published thesis on neural-network disease-outbreak prediction. Combines hands-on software delivery with SQL analytics, BI dashboarding, KPI reporting, and end-to-end ML — from data cleaning, validation, and modeling to stakeholder-ready visualization — and communicates insights clearly to non-technical stakeholders.

Skills & Technologies

- **Languages:** Python, SQL, Java, PHP, HTML, and XML.
- **Technologies & Frameworks:** pandas, NumPy, scikit-learn, TensorFlow, PyTorch, Hugging Face, spaCy, Power BI, Excel, Matplotlib, Plotly, Streamlit, MySQL, Git, Jasper Report, Linux (Red Hat), and Apache.
- **Data & Analytics:** Data cleaning & validation, data modeling, ETL & data pipelines, dashboard development, KPI monitoring & reporting, data visualization, trend analysis, cohort & retention analysis, and stakeholder reporting.

Work Experience

Senior Software Developer **Eservice** **Aug 2023 - May 2024**
Yangon, Myanmar

- **Built and maintained features across 5+ operational Java, PHP, and MySQL systems** supporting day-to-day business processes and enterprise reporting.
- **Validated records and debugged data-quality issues**, producing SQL, Excel, and Jasper Report outputs that business users relied on for decisions.
- **Standardized 15+ recurring reports** by consolidating SQL queries and reusable templates, reducing manual effort for routine outputs.

Team Lead **Future Hub** **Feb 2018 - Jul 2023**
Yangon, Myanmar

- **Led open-source development teams of 5 developers over 5+ years**, delivering real-estate and UNDP-funded SME e-commerce platforms while owning requirements, task allocation, code review, mentoring, and stakeholder communication.
- **Standardized SQL data models and reporting outputs** (Jasper Report, Excel) that gave stakeholders clear, consistent operational KPIs across client projects.
- **Mentored developers and ran structured code reviews**, improving delivery consistency and code quality across concurrent client engagements.

Senior Developer **Eservice (Electronic Service Company Ltd)** **Jan 2004 - Jun 2015**
Yangon, Myanmar

- **Built 25+ enterprise Java, PHP, and MySQL applications** for core banking, POS, inventory, payroll, and business operations over an 11-year tenure.
- **Developed a web-based banking system and a POS & inventory-control system** implementing FIFO, LIFO, and average-cost valuation, deployed to production for retail and financial clients.
- **Produced Jasper Report and SQL-based reporting** that supported daily operational and financial decision-making for business users.

Education

M.Sc: Data Science, AI & Digital Business **Oct 2024 - Nov 2025**
GISMA University of Applied Sciences, Potsdam · Grade 2.2

MBA: Business Administration & Management **Feb 2014 - Dec 2016**

Projects & Extra

MSc Thesis: “Predicting Disease Outbreaks Using Machine Learning and Public Health Data” 2025

Compared Decision Trees, Neural Networks, ARIMA, and LSTM on epidemiological, climate, and mobility data; the neural network beat the baseline by 27% RMSE. Published on ResearchGate (DOI: 10.13140/RG.2.2.35607.23208). · [View publication](#)

E-Commerce Review Sentiment (NLP) 2025

Fine-tuned a DistilBERT transformer against a TF-IDF + Logistic Regression baseline for Amazon review sentiment, improving accuracy from 55% to 63%. Python, PyTorch, Hugging Face, spaCy, scikit-learn.

Retail Sales Analytics (EDA) 2025

Answered five business questions from retail transaction data, surfacing a 95.3% cash-on-delivery share and a 2x October sales spike. Python, pandas, Plotly, Seaborn.

Cohort & Retention Analysis (E-Commerce) 2026

Cohort and retention analysis of 779K transactions (5,878 customers) from the UCI Online Retail II dataset: acquisition cohorts, retention matrix, heatmap, and revenue retention. Month-1 retention averaged 21.2%, stabilizing near 16.6%.

Aura Intelligence Suite (BI Dashboard) 2025

Client-side BI dashboard with multi-file CSV ingestion and interactive analytics for customer purchase behavior and sales optimization. JavaScript, PapaParse, Chart.js. · [Code](#)

Predictive Analytics Dashboard 2025

Dashboard-design exercise on telecom churn: model-comparison views and an interactive risk simulator. Displayed figures are illustrative, not from a trained model. HTML, Tailwind CSS, Chart.js. · [Code](#)

US Retail Sales Dashboard (Streamlit) 2025

Interactive Streamlit dashboard exploring ~186K US retail orders with product, city, and month filters across revenue, volume, and trend views. Python, pandas, Streamlit, Plotly.

Singapore HDB Resale Dashboard (Streamlit) 2025

Interactive Streamlit dashboard analyzing ~213K Singapore HDB resale transactions (2010–2019) with town, street, and flat-type filters comparing prices and remaining lease. Python, pandas, Streamlit, Plotly.

Movie Rating Prediction (Neural Collaborative Filtering) 2025

Built a neural collaborative filtering model with a 7-experiment architecture ablation; achieved MAE ≈ 0.198 and MSE ≈ 0.056 . TensorFlow/Keras, pandas, scikit-learn.

Real Estate Management System, Future Hub (client project) 2021 - 2023

Delivered a full property-listing, sales-workflow, and reporting platform for an open-source real-estate client. PHP, MySQL, Jasper Report.

UNDP Online E-Commerce Platform, lead developer 2020 - 2023

Built catalog, ordering, and reporting features for a UNDP-funded SME e-commerce marketplace. PHP, MySQL.

Certifications

- [Introduction to Data Analytics with Python](#) — FutureLearn · Issued Aug 2025
- [Microsoft Future Ready: Data Science Research Methods Using Python](#) — CloudSwyft Global Systems (FutureLearn) · Issued Aug 2025 · Overall score 100%
- [Excel Skills to Make an Impression](#) — The Excel Club (FutureLearn) · Issued Aug 2025
